birding tours to Costa Rica"**
**Scheduled & fully
customized tours arranged**

Tico Tours

About

Tico Tours™, LLC is a U.S. based organizer of birding tours. We specialize in small group (4-8 birders) birding tours to Costa Rica. Limiting the group size allows us to provide excellent, personalized service to all participants.

Tico Tours

We will organize every aspect of your birding tour. We work with several well established tour companies to negotiate the best possible all inclusive prices. We handle everything including making room and meal reservations at some of the best nature lodges, ensuring expert guides are available, arranging safe and reliable transportation, and providing information including bird checklists and maps of the areas visited. We can also assist you in making flight reservations.

Our goal is to ensure your tour with us is one of the best birding experiences of your life. To help us meet this goal, you can count on getting prompt, personalized communication before and during your tour! So why not give Tico Tours™ a try the next time you yearn to go birding in Costa Rica or any of our other exciting destinations!
